Data-Driven HR: Unlocking Workforce Insights (WIP)

• Deel HRIS offers comprehensive reporting and analytics capabilities to help organizations **understand their workforce data.**

• Users can access a range of ready-to-go reports on **contracts, payments, invoices, productivity, and more.**

• **Custom reports** can be created from scratch, allowing users to select specific information and columns to include.

• **Visual reporting** features include retention data, costs, time off information, and employee diversity.

• The system allows for sharing reports with specific team members, **controlling data visibility.**

• For Deel HR users additional granularity is provided in areas like payroll costs and worldwide analytics on contributions and deductions.
